

Ongoing Clinical Trials by Phase and Therapeutic Approach

1. Within-graph labels represent phase totals

Ongoing Clinical Trials by Phase and Region

1. Within-graph labels represent phase totals

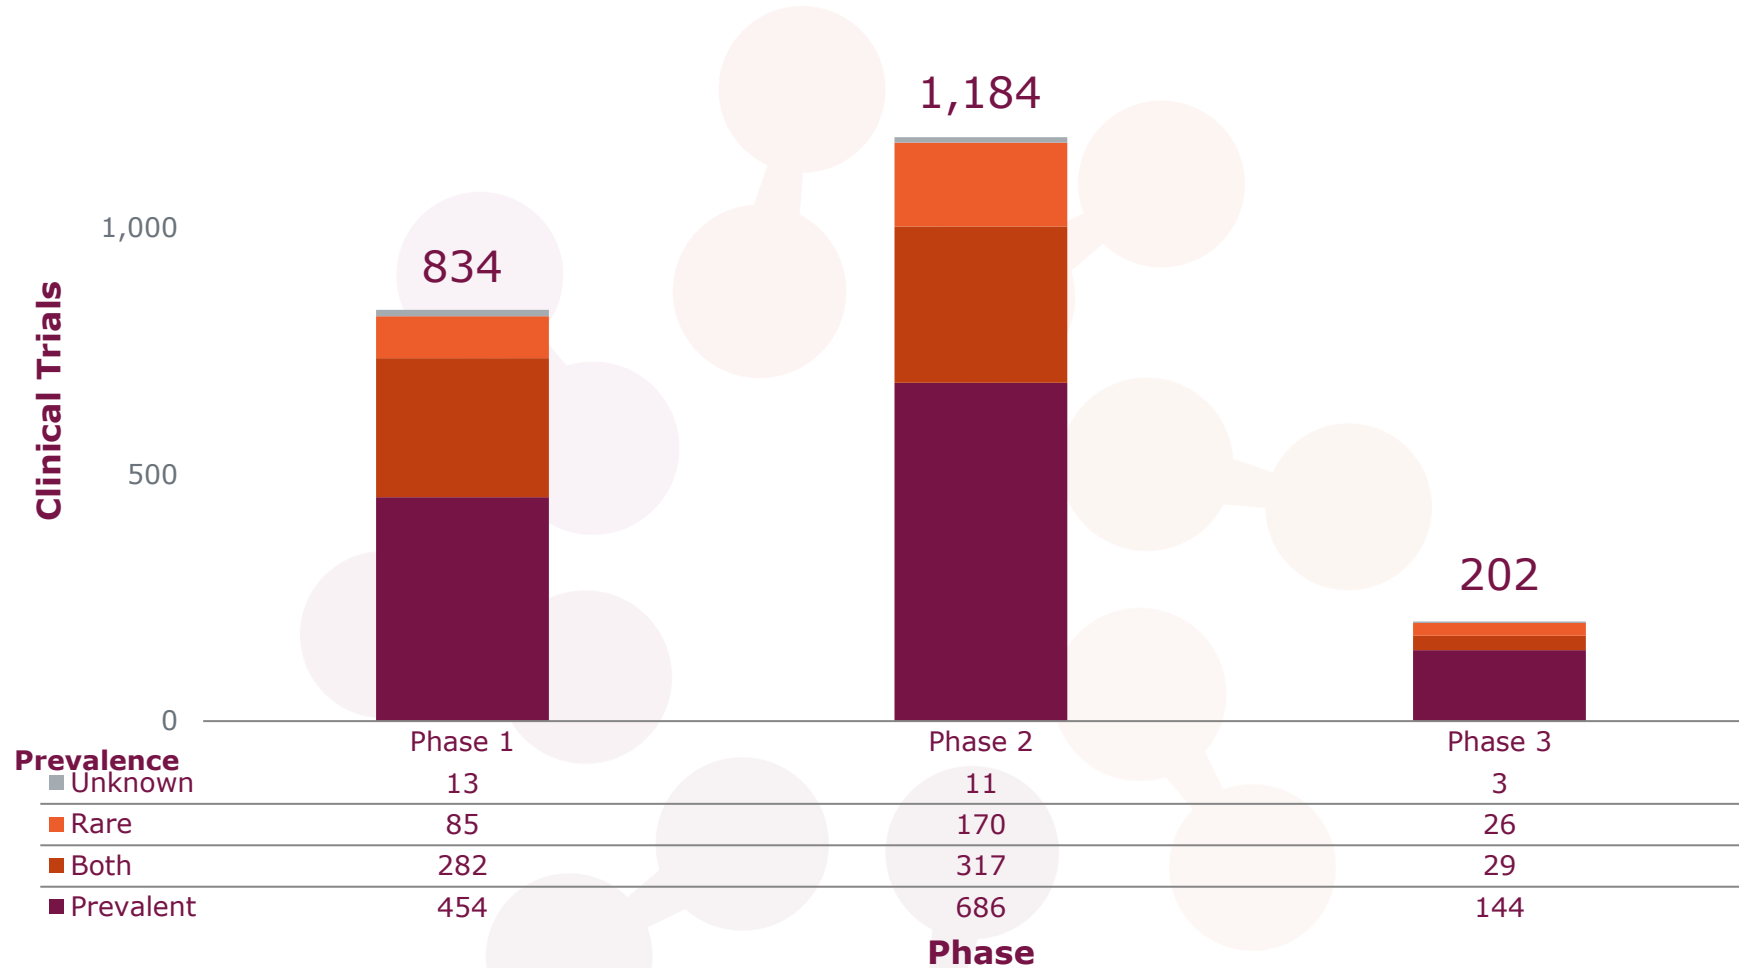

2. Clinical trials take place in multiple regions; sum of regional totals will not be equivalent to phase totals

Ongoing Clinical Trials by Phase and Sponsor

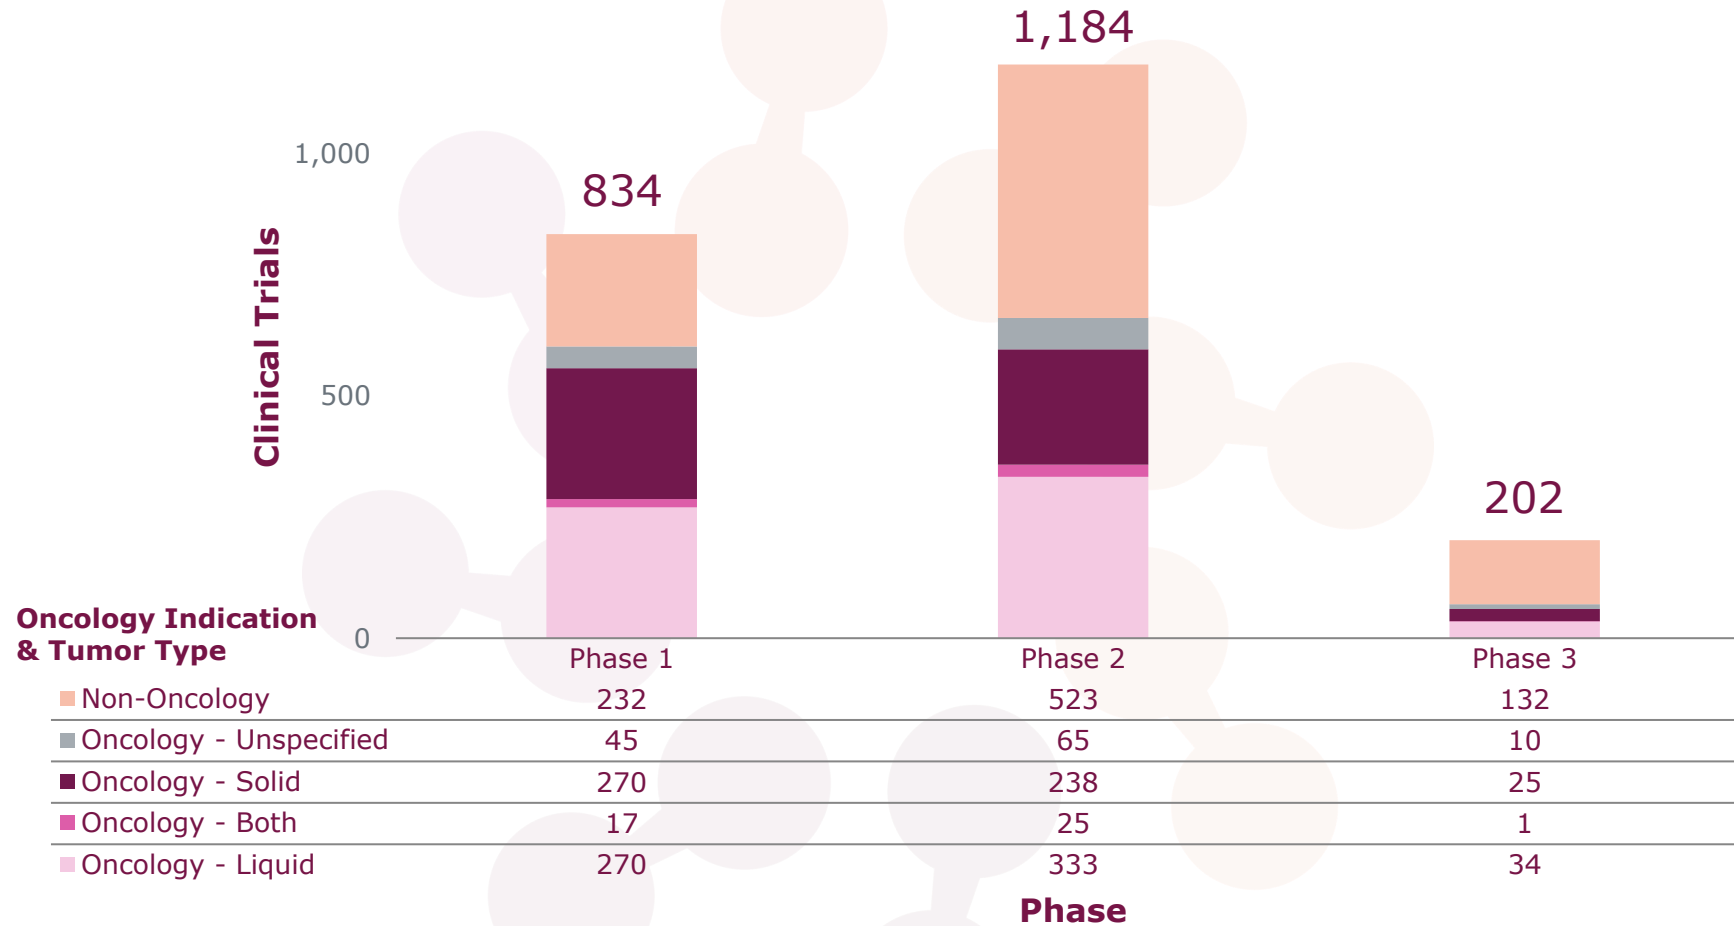

1. Within-graph labels represent phase totals
2. Non-industry includes academic and government sponsors

Ongoing Clinical Trials by Phase and Prevalence

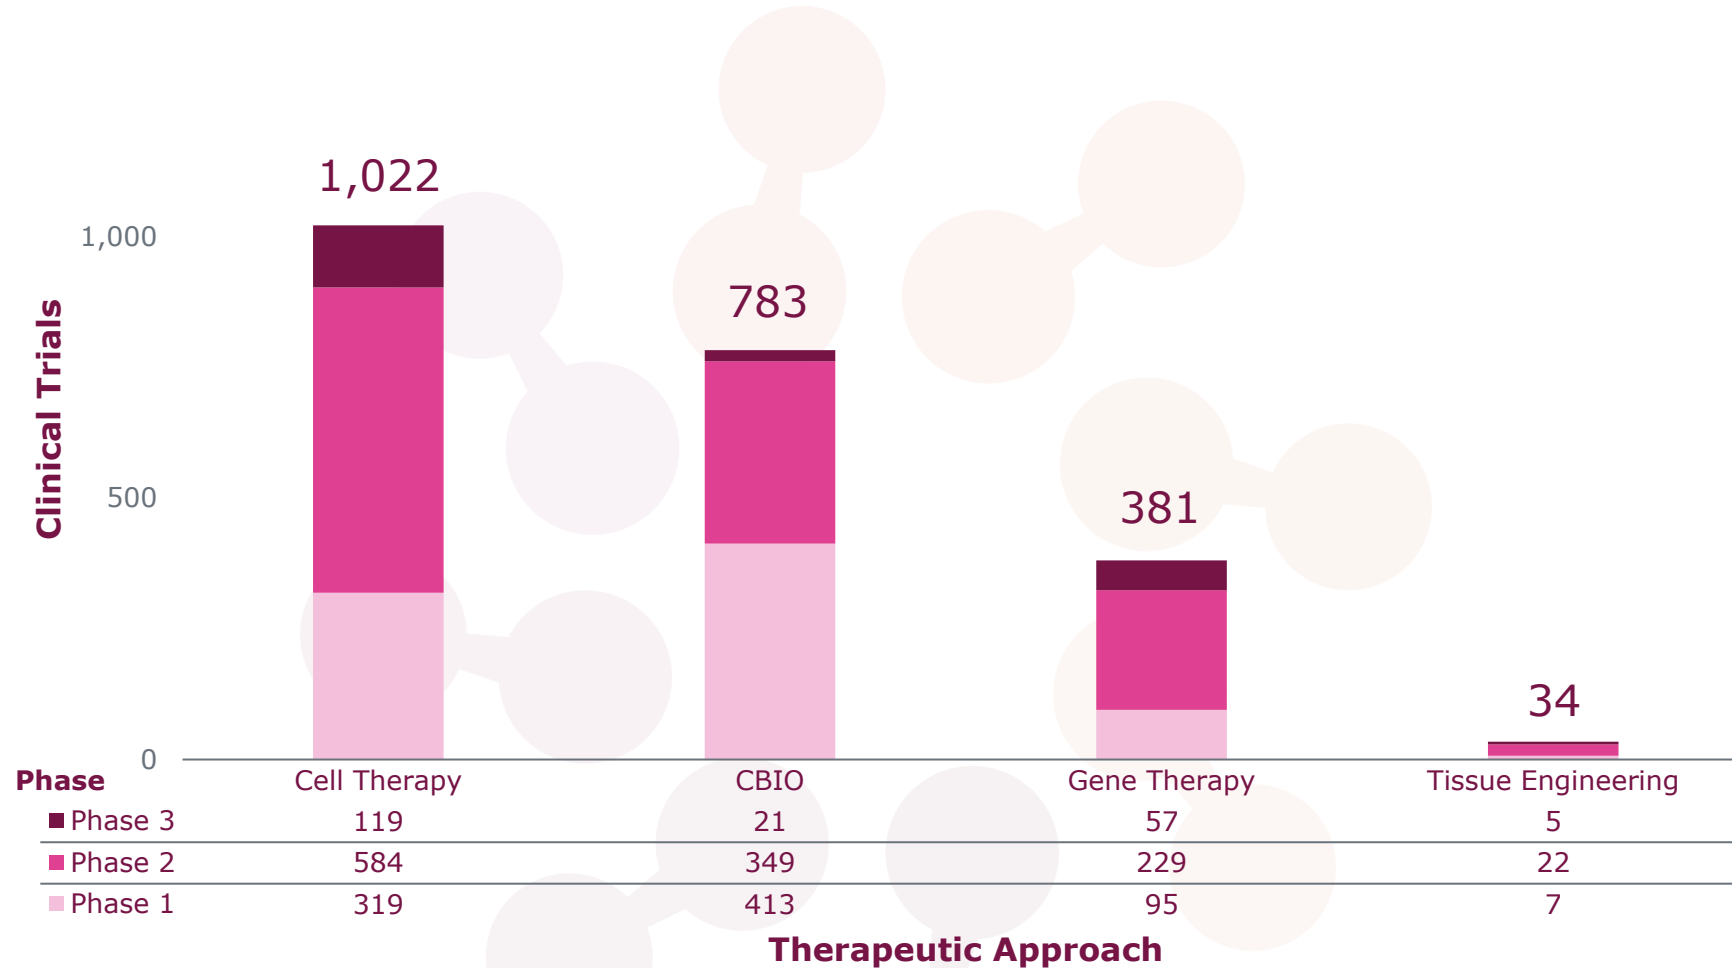

1. Within-graph labels represent phase totals

Ongoing Clinical Trials by Phase and Oncology Indication & Tumor Type

1. Within-graph labels represent phase totals

Ongoing Clinical Trials by Therapeutic Approach and Phase

1. Within-graph labels represent therapeutic approach totals

Ongoing Clinical Trials by Therapeutic Approach and Region

1. Within-graph labels represent therapeutic approach totals

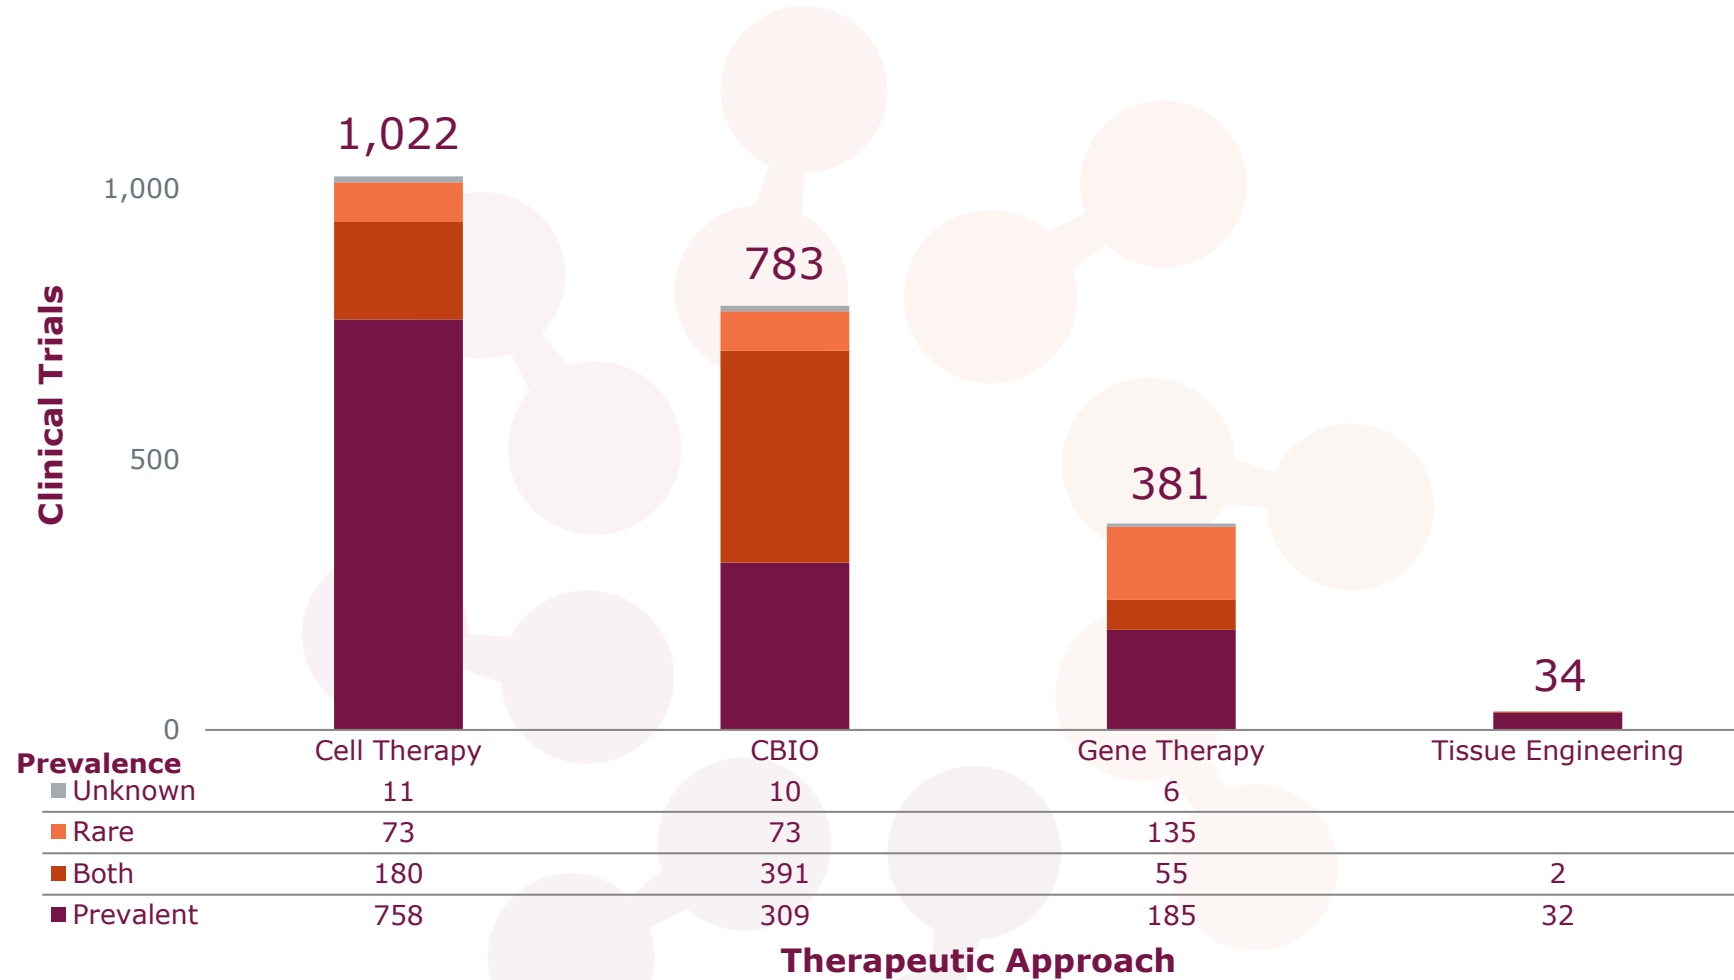

2. Clinical trials take place in multiple regions; sum of regional totals will not be equivalent to therapeutic approach totals

Ongoing Clinical Trials by Therapeutic Approach and Sponsor

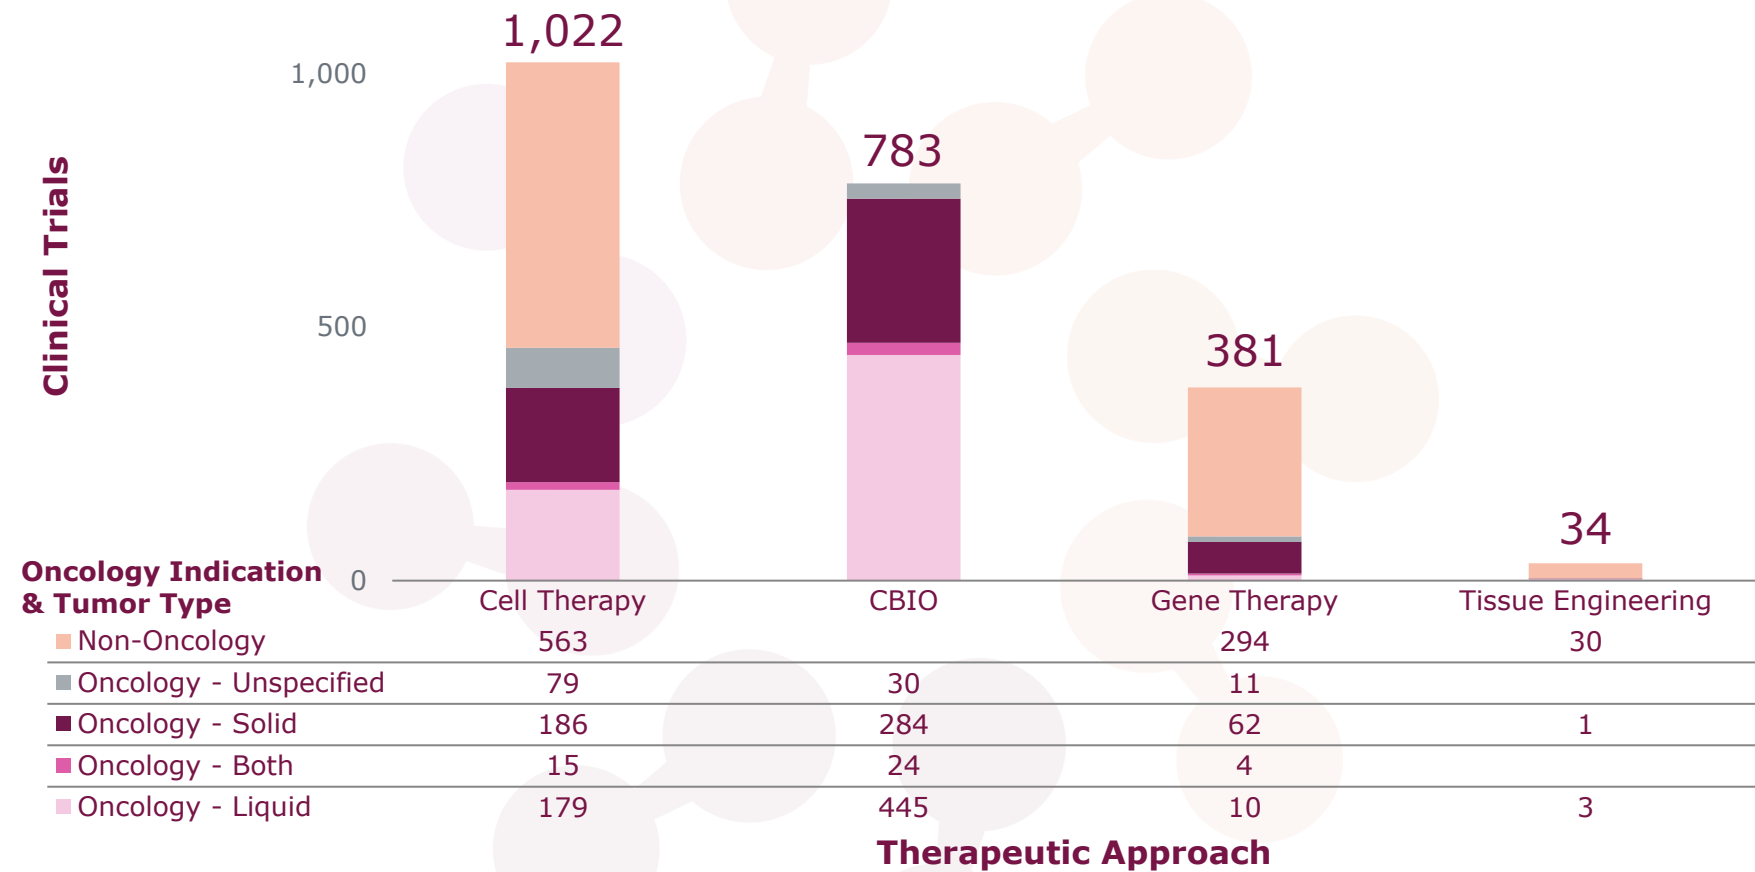

1. Within-graph labels represent therapeutic approach totals
2. Non-industry includes academic and government sponsors

Ongoing Clinical Trials by Therapeutic Approach and Prevalence

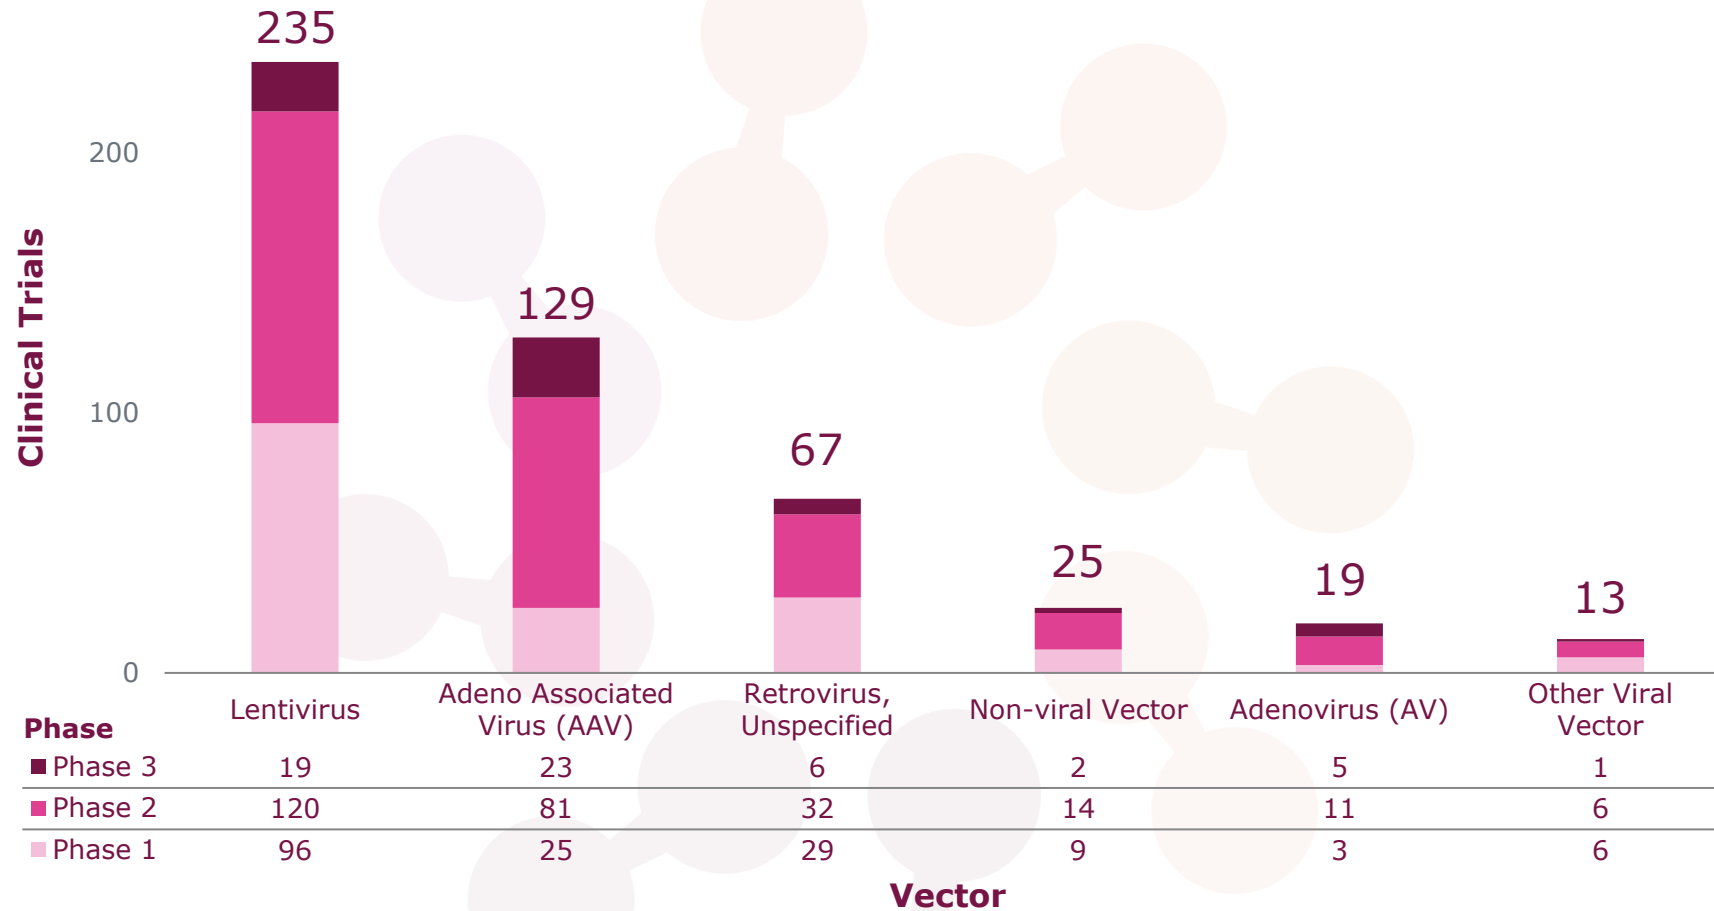

1. Within-graph labels represent therapeutic approach totals

Ongoing Clinical Trials by Therapeutic Approach and Oncology Indication & Tumor Type

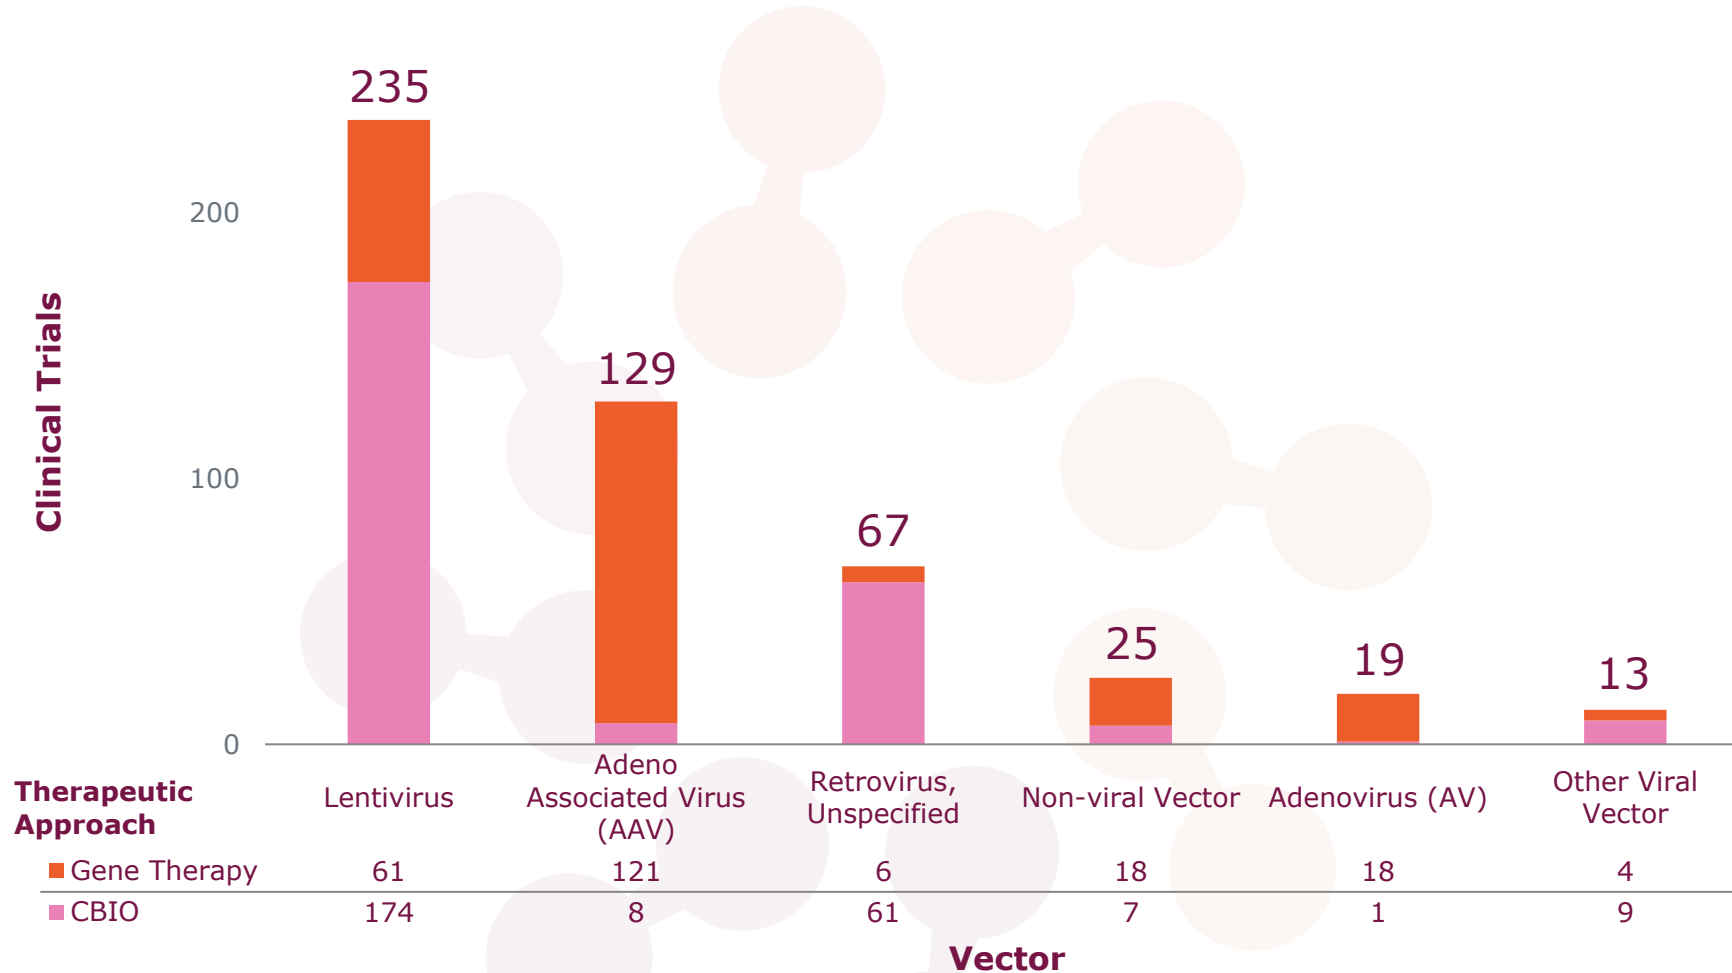

1. Within-graph labels represent therapeutic approach totals

Ongoing Clinical Trials by Vector and Phase

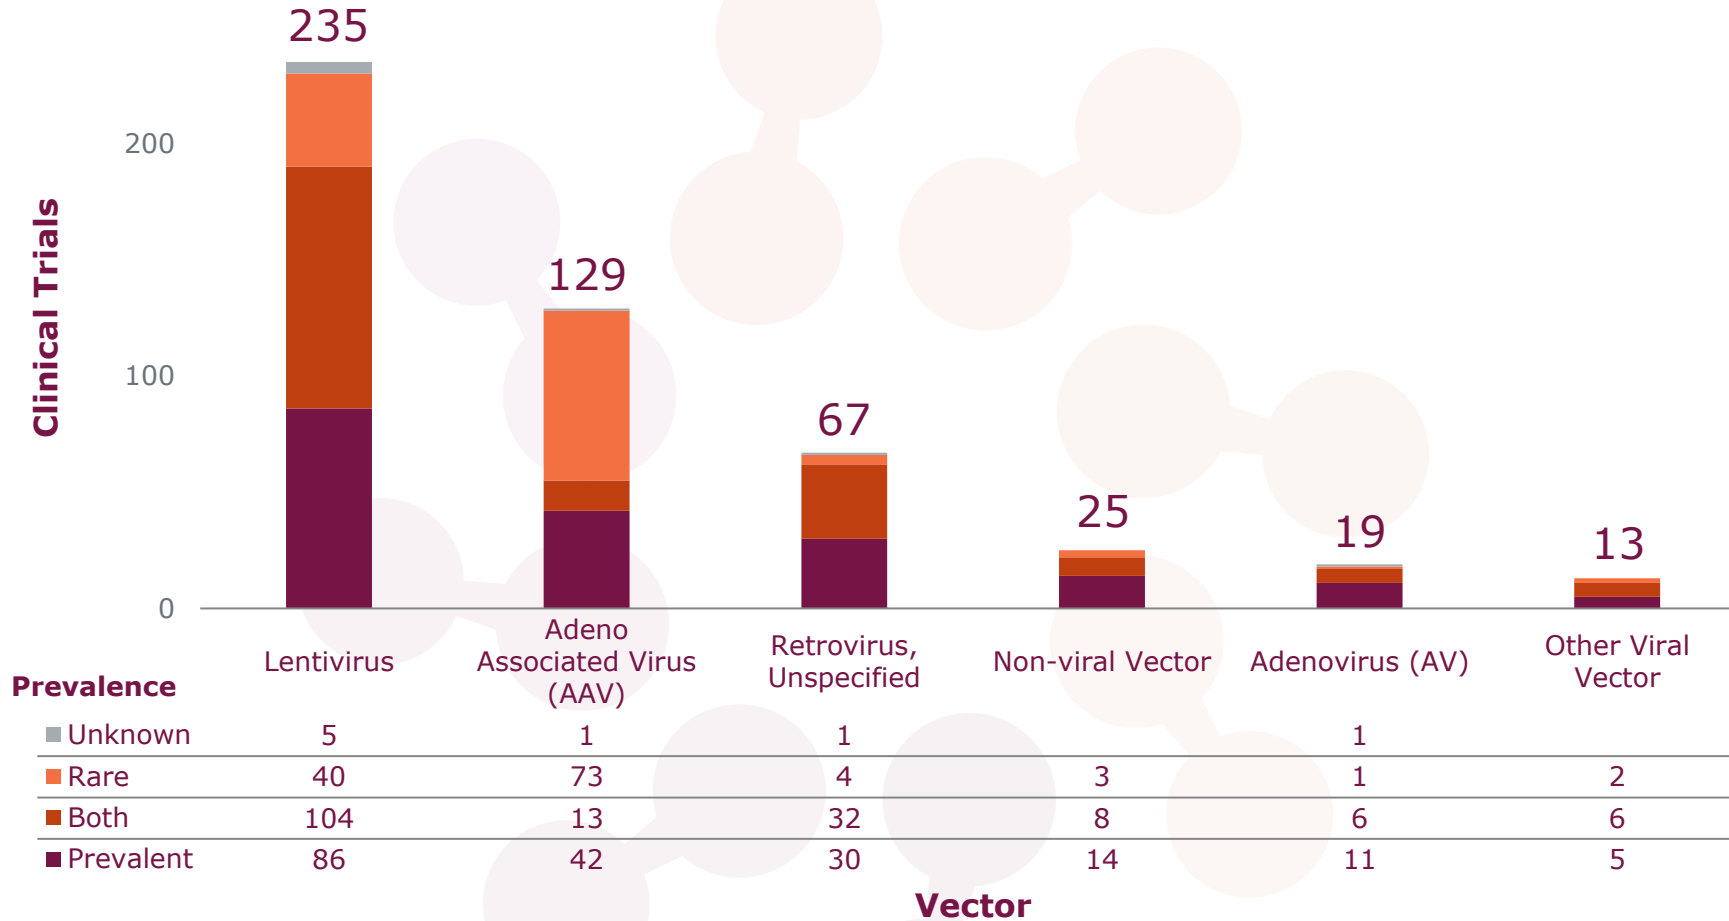

1. Within-graph labels represent vector totals

Ongoing Clinical Trials by Vector and Therapeutic Approach

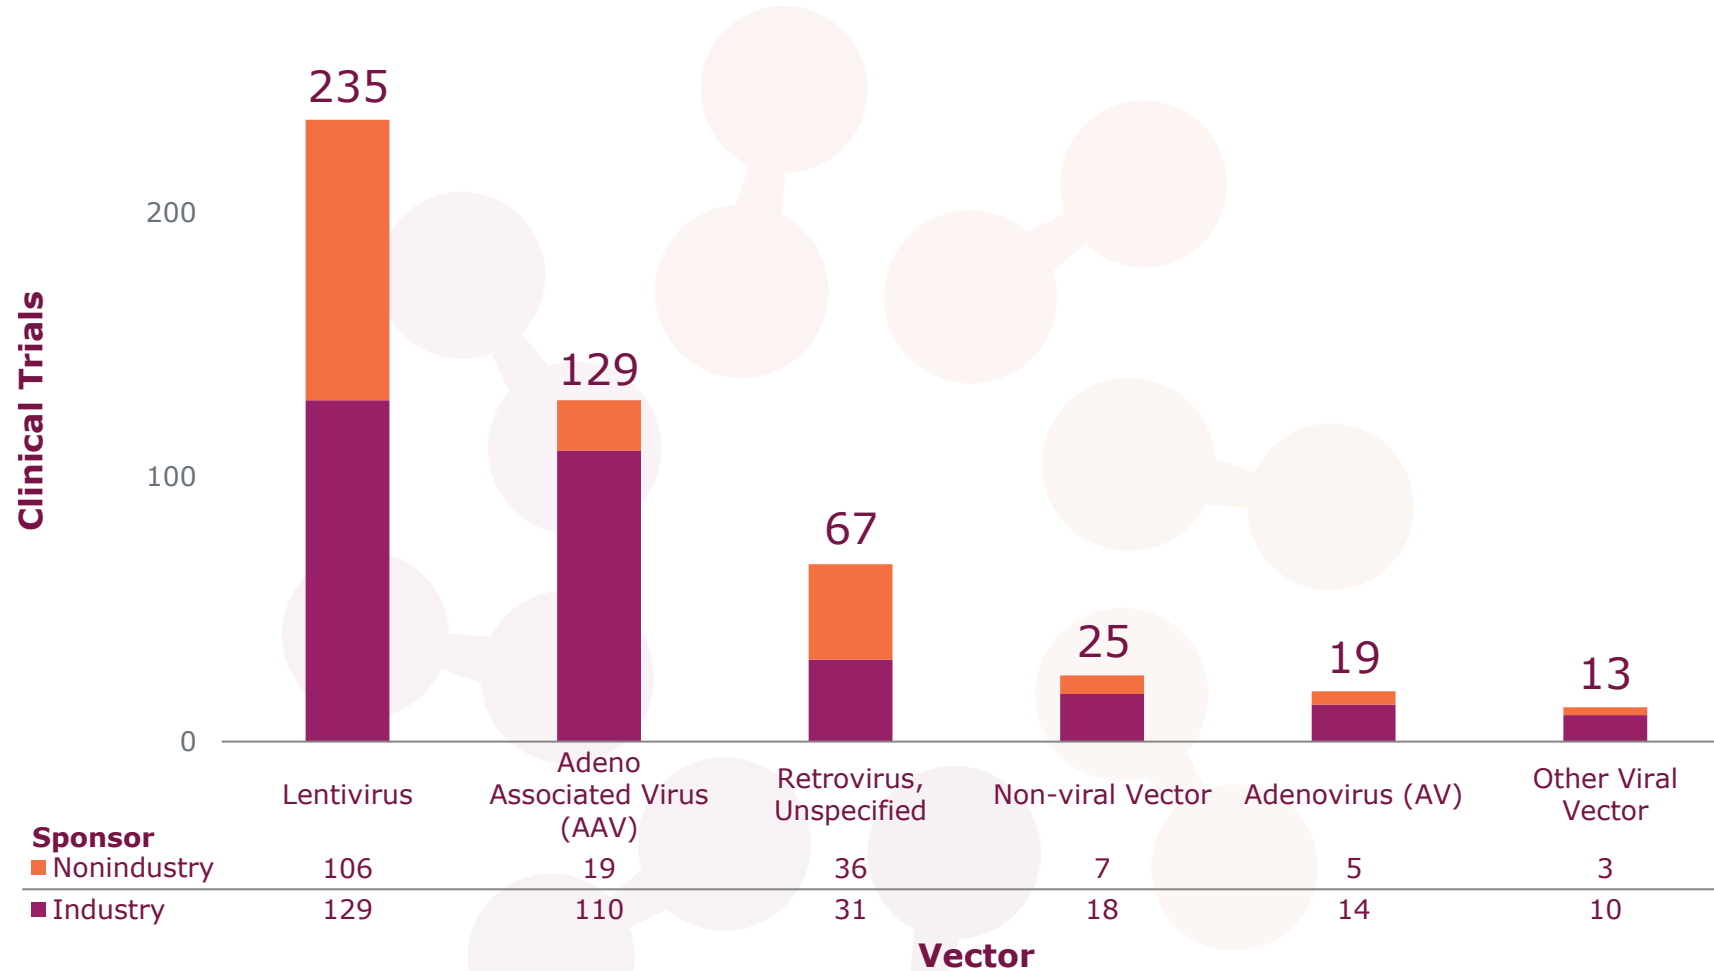

1. Within-graph labels represent vector totals

Ongoing Clinical Trials by Vector and Prevalence

1. Within-graph labels represent vector totals

Ongoing Clinical Trials by Vector and Sponsor

1. Within-graph labels represent vector totals
2. Non-industry includes academic and government sponsors

Methodology Notes for Clinical Trial Data

Methodology Notes

1. Clinical trial data represent a snapshot in time; this snapshot was taken in December 2022.
2. Clinical trials include trials in phases 1-3, active at any point in the calendar year; phase 2 may include phase 1/2 trials, phase 3 may include phase 2/3 trials.
3. Clinical trial regions are based on known site locations, which may change over time.
4. Clinical trials may have multiple site locations which may reside in a single region or span across multiple regions; the sum of clinical trials across regions will not be equivalent to the total number of trials.
5. Nonindustry trials include academic and government sponsors, as well as hospitals, medical centers, and other facilities funded by not-for-profits, foundations, etc.
6. Prevalence classifications are based on GlobalData identification of trial indications; many trials have multiple indications.
7. GlobalData's classification of 'rare' indications or populations is based on US FDA and HIG Genetic and Rare Diseases Information Center (GARD) definitions (affecting <200,000 people in the US); 'rare' may not reflect different regional prevalences.
