

## **The Alliance for Regenerative Medicine Announces Election of 2024 Board of Directors**

**Carlsbad, CA – October 10, 2023**

The Alliance for Regenerative Medicine (ARM), the leading international advocacy organization championing the benefits of engineered cell therapies and genetic medicines, today announced the election of its 2024 Board of Directors.

*"I'm delighted to welcome these accomplished cell and gene therapy executives to the ARM Board of Directors,"* said Devyn Smith, Board Chair and Chief Executive Officer of Arbor Biotechnologies. *"I look forward to working with our new and existing Directors on building the future of medicine for patients with serious and debilitating diseases."*

The announcement comes as ARM kicks off its 2023 Cell & Gene Meeting on the Mesa, a gathering of 2,000 leaders in the cell and gene therapy sector. Seven new Board Directors will join 26 other Directors who will continue their service on the ARM Board in 2024.

*"ARM's Board of Directors plays an integral role in determining the strategic direction of ARM and the cell and gene therapy sector overall,"* said ARM's Chief Executive Officer Tim Hunt. *"Our Board is reflective of ARM's multistakeholder membership comprised of biotechnology companies, patient advocates, and research institutions working to develop transformative medicines and ensure they can be delivered to patients."*
